

Consultation Meeting on NDSAP Implementation

HasGeek Media LLP (<http://hasgeek.com>) has been conducting a study on the practices of accessing, using and sharing of Open Government Data in India, as part of the 'Exploring the Emerging Impacts of Open Data in Developing Countries' research network managed by the World Wide Web Foundation and supported by the International Development Research Centre, Canada.

In view of the above a consultation meeting is being organized on Friday, April 04, 2014, afternoon by the National Data Sharing and Accessibility Policy - Project Management Unit (NDSAP-PMU), National Informatics Centre, DeitY, M/o Communications and IT, GoI to discuss the findings of the study and invite feedback to take up any corrective majors, if necessary.

The consultation meeting also looks forward to explore possible collaborations between the NDSAP-PMU and the participating organizations (work on national, regional and local level data) towards a more effective and wider implementation of the National Data Sharing and Accessibility Policy through the Open Government Data Platform, <http://data.gov.in>.

The agenda for the event is as follows:

02:30-02:50 pm | Introductory Remarks from Ms. Neeta Verma, Head of OGD in India

02:50-03:20 pm | Sharing of Findings from the Study on '*Exploring the Emerging Impacts of Open Data in Developing Countries*' by Mr. Sumandro Chattapadhyay (HasGeek Media LLP)

03:20-04:00 pm | Responses to the Findings

04:00-04:20 pm | Open Government Data Platform of India – Ms. Alka Mishra, Senior Technical Director, NIC

04:20-05:00 pm | Discussion on Possible Collaborations towards Generating, Sharing and Exploring Open Data from Government and Non-Government Sources

05:00-05:30 pm | High Tea
